

NRRC NEWSLETTER FEBRUARY 2018

Introduction

February already! It doesn't seem 5 minutes since it was Christmas. What a January we have had, soooo much snow. The kids have thoroughly enjoyed the sledging and seeing what strange ways they can come hurtling down the hill; be it standing up, coming down backwards, sideways and even the dogs being roped in to pull the sledges back up the hill for them. I also introduced the boys to the plastic feed bag full of straw to sit on, they were thrilled, ditched the sledges and made ramps at the bottom to go flying over. I'm surprised I have any nerves left, praying there were no broken bones. Luckily they all survived intact!

Anyway on a positive note do you know we only have 6 Sundays left until the first day of spring? I for one cannot wait for longer evenings, some nicer weather AND less MUD!!!
